

CONV. FU-181/2024

1. POSITION OFFERED

1.1. A job is being opened to cover **1 Position for Llicenciat/da Suport Recerca (G3-Personal de Suport a la Recerca)** to support the research of **Fundació de Recerca Clínic Barcelona-Institut d'Investigacions Biomèdiques August Pi i Sunyer** inside the "*Liver cell plasticity - Hepatoblastoma modeling*" research line. To participate in the research project "*Dissecting the role of the 14q32 region in hepatoblastoma "Hblast14"*" and at the "*Liver Cell Plasticity and Tissue Repair group*" research group. Funded by Worldwide Cancer Research. Grant agreement number: 23-0356, with an indefinite scientific-technician activity contract, in the following requirements:

Required qualifications and skills:

- **Required Education Level:** Degree in biotechnology, biochemistry or related.
- **Master/PhD:** Biomedicine, bioengineering, oncology.
- **Experience Required:**
 - ✓ Cell culture and animal handling.
 - ✓ Gene editing techniques (CRISPR).
 - ✓ Experience in bioinformatics analysis of single cell RNAseq data.
- **Skills:**
 - ✓ Have ability to work in a team.
 - ✓ Have organizational, planning and analytical skills.
 - ✓ Have an eye for detail, responsibility, and an eager-to-learn attitude.
 - ✓ Have excellent written and oral communication skills.
 - ✓ Be willing to adapt to a flexible work schedule when needed.
 - ✓ Be willing to meet deadlines and follow up on assignments.
- **Required Languages:** Catalan, Spanish, and English.

Job description / Tasks to be developed:

FRCB-IDIBAPS Liver Cell Plasticity and Tissue Repair research group is looking for a researcher in Cancer. The project aims at understanding molecular mechanisms driving Hepatoblastoma (HB). HB is the most common paediatric liver cancer, and currently there are limited therapeutic options for children with aggressive tumours. In this regard, immature and cell stemness features are associated with poor outcome and no response to treatment. To identify main players in the acquisition of cancer stem cell phenotype we aim to use patientderived organoids as in vitro model of HB.

The researcher will lead the characterization and gene editing of patientderived liver HB organoids as well as the generation of organoid-derived xenograft.

In addition, he/she will be responsible for the evaluation of HB organoid tumorigenic potential and drug response.

The applicant will work under the supervision of Pau Sancho-Bru from FRCB-IDIBAPS.

She/He will carry out the following research activities:

- Generate and expand the collection of organoids derived from patients, characterizing cancer stem cell population through single cell RNAseq.
- Define organoid-derived xenograft using immunosuppressed mice.
- Generate genetic engineered patient-derived organoids through CRISPR/CRISPRi system.
- Employ organoids and organoid-derived xenograft to understand drug response mechanisms.
- Temporal Indefinit d'activitats Científic tècniques
- The activity will be developed mainly at the Liver Cell Plasticity and Tissue Repair group at FRCB-IDIBAPS, with close collaboration with the Childhood Liver Oncology Group from IGTP.
- The applicant will integrate in a multidisciplinary group investigating liver cell plasticity in advanced liver disease and tumorigenesis and to develop stem cell-based in vitro systems for disease modeling.

Presentation of applications:

All documents must include the reference code of the job offer (see upper left corner of the call).

- Candidates must enclose a motivation letter and their Curriculum Vitae (including list of publications).
- Proof of the merits exposed, and the degree obtained must also be included in the application.
- The application must include also signed authorization in reference to personal data protection law - European Regulation (UE) 2016/679- (Document attached, Page 4).

Place of submission: (clearly indicating the reference code of the job offer)

1. Delivering it personally to the Dept. of Human Resources, located on the Esther Koplowitz Centre, C/ Rosselló 149, from 10 am to 1 pm from Monday to Friday.
2. By e-mail to the e-mail address: fcbrhh@recerca.clinic.cat

Application Deadline: June 06, 2024.

1.2. The recruitment will be carried out according to the provisions of Article 15 of the Royal Legislative Decree 1/1995, of 24 March, which approves the text of the law of the Statute of workers, in accordance with the provisions of art. 2 of the Royal Decree 2720/98, of 18 December (BOE of 8 January 1999), law 12/2001, of 9 July (B.O.E. of 10 July) and concordant provisions.

The principle of equal treatment between men and women will be considered, according to article 14 of the Spanish Constitution, the Community Directive of 9 February 1976 and what is foreseen in the agreement of the Council of Ministers of 4 March 2005, which approves the plan for gender equality in the General Administration of the State.

The universal accessibility for disabled persons will be considered according to the second paragraph of Article 1 of the law of December 2 51/2003 of equality of opportunities; 5% of the vacancies are preserved when candidates' pass the selection process and disabilities are proved. Also, compatibility with the tasks associated to the job must be proved so that progressively we reach 2% of all workforces.

1.3. Annual gross remuneration inherent to the job offer object of this call will be fixed on the basis of the experience provided and the skills of the candidates.

1.4. In accordance with Regulation (EU) 2016/679 of 27 April 2016 on the protection of natural persons with regard to the processing of personal data (hereinafter the "Regulation"), we hereby inform you that:

- The party responsible for processing your data is Fundació de Recerca Clínic Barcelona-Institut d'Investigacions Biomèdiques August Pi i Sunyer (hereinafter "FRCB-IDIBAPS"), with Corporate ID No. G-59319681, and registered address in Barcelona, Carrer Rosselló 149-153. You may contact the Data Protection Manager by sending an email to protecciodades.recerca@clinic.cat or by writing to the Legal Director at Carrer Rosselló 149-153, Barcelona.
- When presenting your candidacy or sending us your CV, your data must be communicated with the aim and purpose of allowing employees at the entity to carry out management and selection processes.
- The information will be used by administrative and employee services in our entity, for their corresponding services, and may be submitted in full or in part to any authorities that, for legal reasons, require this type of information.
- The data provided will be held for a period of 1 year, and in addition once the relationship has been completed the data will be held for the period necessary to comply with legal provisions.
- The data provided may be transferred to a third country or international organisation, where necessary to justify the contract and/or salary of the employee providing the data.
