

Llicenciat/da Suport Recerca (G3) for the *Laurel: Actionable Policies for Adopting High-Quality Integrated Long-Term Care* project.

Code: FU-133/2025

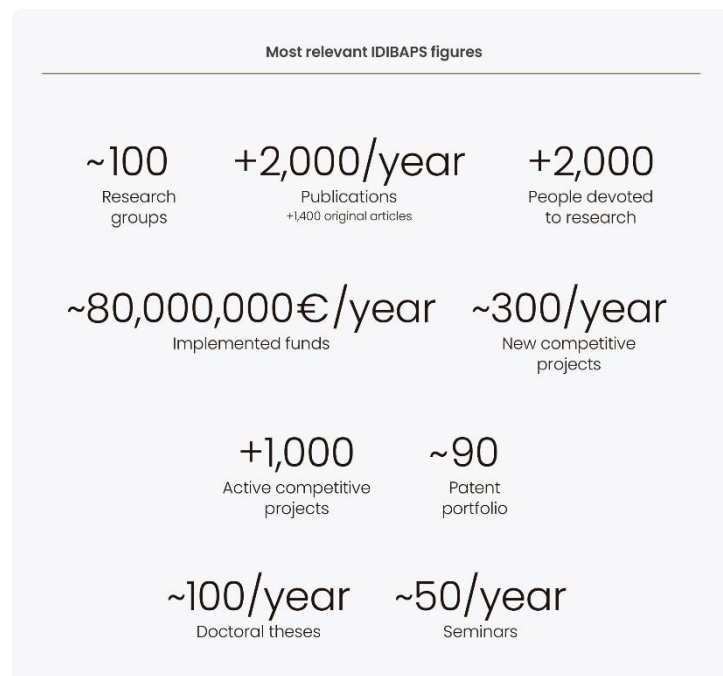

About the institution

The Barcelona Clinical Research Foundation-August Pi i Sunyer Biomedical Research Institute (IDIBAPS) is a biomedical research centre of excellence, located on the Barcelona Clinic Campus and with a clear international focus.

The IDIBAPS research community includes over 2,000 professionals and a hundred multidisciplinary groups that carry out high-impact translational research aimed at addressing biological and clinical questions relevant to human health, as evidenced by the more than 1,500 original articles published each year that make the institution one of the main biomedical research centres in Spain.

The Clínic Campus offers a high-level research and innovation environment, which includes the Hospital Clínic of Barcelona, a referral hospital committed to care, research and teaching, which covers practically all medical and surgical specialities, plus the University of Barcelona's Faculty of Medicine and Health Sciences. The latter dates from 1843 and is today one of the most prestigious health sciences faculties in Spain and worldwide.

Since 2015, IDIBAPS has had [HR Excellence in Research](#) accreditation from the European Commission. It is a CERCA centre and is accredited as a Health Research Institute by the Carlos III Health Institute (ISCIII).

Job description

A position is available in the Directorate of Research and Innovation of FRCB-IDIBAPS to participate in the research project Laurel (Actionable Policies for Adopting High-Quality Integrated Long-Term Care) funded by the EU. This project aims to investigate innovative policies in integrated and person-centred care for patients requiring long-term care (I-LTC). The research will be overseen by Dr. Albert Alonso.

The work plan of the project contemplates the following activities in which the candidate will be involved:

1. Investigate I-LTC initiatives in EU27: literature review (scientific and grey) to extract evidence on European policies in I-LTC; collaborate in the development of a strategy for carrying out a European case study; support the collection of data and the analysis and description of the results.
2. Develop operational I-LTC policy recommendations: This will require supporting the consensus-building strategy, implementing it, verifying the results obtained, and obtaining party approval of the selected bodies.
3. Collaborate with the tasks of drawing up a map of technologies suitable for ILTC.
4. Participate in the drafting of a white paper based on the results of the research and contribute to the development of accompanying training material.
5. Participate in the writing of academic articles on the research carried out, as well as presentation related to the progress of the project and interim results in conferences, workshops, seminars.

Required qualifications

- Bachelor's degree (Any).
- Master's degree (Any).

Experience and knowledge

- Solid training in social services' research, with preference in areas of health, social-community integration, inequalities in health (employment, gender issues, rural and urban gap), and the definition of social and health policies.
- Know how to develop working questions and hypotheses, define research objectives, and develop a strategy for how to work with them.
- Good skills to do research with primary and secondary information sources, as well as the use of qualitative methods such as interviews, surveys, visits, conferences, exhibitions, etc.
- The candidate must be familiar with qualitative and quantitative methods of analysis of results to validate initial objectives or hypotheses.
- Finally, the candidate they must have experience in presenting the results in academic article format and conference papers.
- Catalan (Level C1) - English (Level C1) - Spanish (Level C1)
