

Llicenciat/da Suport Recerca (G3) at the Systems Neuroscience group.

Code: FU-234/2025

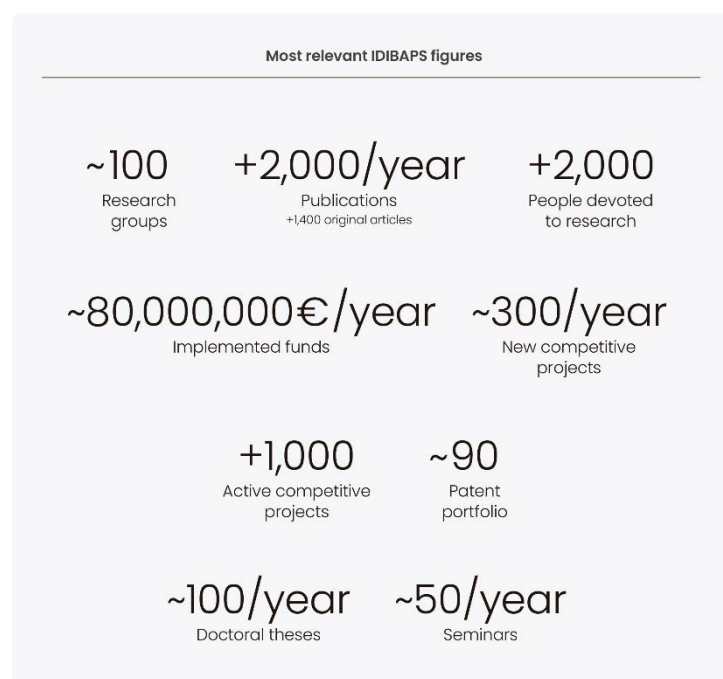

About the institution

The Barcelona Clinical Research Foundation-August Pi i Sunyer Biomedical Research Institute (IDIBAPS) is a biomedical research centre of excellence, located on the Barcelona Clinic Campus and with a clear international focus.

The IDIBAPS research community includes over 2,000 professionals and a hundred multidisciplinary groups that carry out high-impact translational research aimed at addressing biological and clinical questions relevant to human health, as evidenced by the more than 1,500 original articles published each year that make the institution one of the main biomedical research centres in Spain.

The Clínic Campus offers a high-level research and innovation environment, which includes the Hospital Clínic of Barcelona, a referral hospital committed to care, research and teaching, which covers practically all medical and surgical specialties, plus the University of Barcelona's Faculty of Medicine and Health Sciences. The latter dates from 1843 and is today one of the most prestigious health sciences faculties in Spain and worldwide.

Since 2015, IDIBAPS has had [HR Excellence in Research](#) accreditation from the European Commission. It is a CERCA centre and is accredited as a Health Research Institute by the Carlos III Health Institute (ISCIII).

Job description

- Design and implement behavioural and EEG experiments.
- Collect EEG data.
- Preprocess and analyse EEG data with Python and Matlab.
- Present the work at national and international conferences, writing scientific articles.

Required qualifications

- Bachelor's degree in biology.
- Master's degree in Brain and Cognition, with a background in neuroscience.

Experience and knowledge

- Experience with electrophysiology (EEG): data acquisition, processing and analysis.
- English, Catalan, Spanish.
