

# Llicenciat/da Suport Recerca (G3) at the Immunogenetics and Immunotherapy group of autoinflammatory and autoimmune diseases.

Code: FU-254/2025

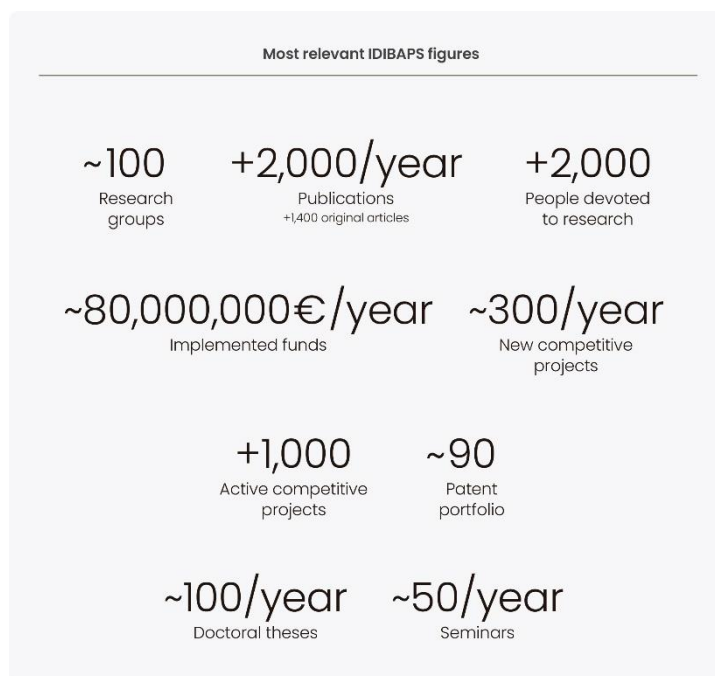

## About the institution

The Barcelona Clinical Research Foundation-August Pi i Sunyer Biomedical Research Institute (IDIBAPS) is a biomedical research centre of excellence, located on the Barcelona Clinic Campus and with a clear international focus.

The IDIBAPS research community includes over 2,000 professionals and a hundred multidisciplinary groups that carry out high-impact translational research aimed at addressing biological and clinical questions relevant to human health, as evidenced by the more than 1,500 original articles published each year that make the institution one of the main biomedical research centres in Spain.

The Clínic Campus offers a high-level research and innovation environment, which includes the Hospital Clínic of Barcelona, a referral hospital committed to care, research and teaching, which covers practically all medical and surgical specialties, plus the University of Barcelona's Faculty of Medicine and Health Sciences. The latter dates from 1843 and is today one of the most prestigious health sciences faculties in Spain and worldwide.

Since 2015, IDIBAPS has had [HR Excellence in Research](#) accreditation from the European Commission. It is a CERCA centre and is accredited as a Health Research Institute by the Carlos III Health Institute (ISCIII).

## Job description

Key Responsibilities: The selected person will be responsible of setting up methods for:

- Molecular virology analysis.
- She/He will design studies and experiments, process samples, analyse sequences and write reports and scientific communications.
- Specific duties: Organization and storage of biological samples, communication with other teams, nucleic acid extraction, molecular amplification, purification and sequencing, sequence analysis, virus cell culture, molecular and serological diagnostic assays.

## Required qualifications

- BSc in Biology, Life Sciences or Microbiology.
- Master's degree in virology.

## Experience and knowledge

Laboratory experience in:

- Molecular virology and cell biology: virus cell culture and titration (especially, arboviruses),
- Immunofluorescence,
- Microscopy,
- ELISA,
- Flow cytometry,
- Nucleic acid purification,
- Cloning and sequencing,
- Restriction analysis,
- PCR,
- Processing of biological samples (blood, saliva, etc).
  - ✓ User-level computer skills, including image analysis and statistics.
  - ✓ Experience in validation of laboratory methods and diagnostic tests.
  - ✓ Initiative and communication skills.
  - ✓ Ability to work in a multidisciplinary team.

## IDIBAPS offers

- **Type of contract:** Indefinite contract for scientific-technical activities.
- **Working hours:** Part time (18,75 hours / week).
- **Line of research:** Immunoteràpia cel·lular i genètica per al tractament del càncer i altres malalties immunomediades.
- **Project:** Plataforma optimizada para la producción personalizada de TCR transgénicos

en linfocitos T (TCR-READY)

- **Funder and official project code:** Instituto de Salud Carlos III (ISCIII) y cofinanciado por la Unión Europea - PMPTA23/00027
- **Incorporation into IDIBAPS:** A research centre of excellence in the city of Barcelona. Excellent research results and competitive project grant awards, both national and international.
- Long-life training offered by the institute.
- **Working conditions:** Holiday entitlement of 22 days + 6 days for personal affairs, flexible working hours and flexible remuneration (health insurance, transport, meal vouchers, training).
