

Data Manager for the “Plataforma Biobanc”.

Code: FU-335/2025

About the institution

The Barcelona Clinical Research Foundation-August Pi i Sunyer Biomedical Research Institute (IDIBAPS) is a biomedical research centre of excellence, located on the Barcelona Clinic Campus and with a clear international focus.

The IDIBAPS research community includes over 2,000 professionals and a hundred multidisciplinary groups that carry out high-impact translational research aimed at addressing biological and clinical questions relevant to human health, as evidenced by the more than 1,500 original articles published each year that make the institution one of the main biomedical research centres in Spain.

The Clínic Campus offers a high-level research and innovation environment, which includes the Hospital Clínic of Barcelona, a referral hospital committed to care, research and teaching, which covers practically all medical and surgical specialties, plus the University of Barcelona's Faculty of Medicine and Health Sciences. The latter dates from 1843 and is today one of the most prestigious health sciences faculties in Spain and worldwide.

Since 2015, IDIBAPS has had [HR Excellence in Research](#) accreditation from the European Commission. It is a CERCA centre and is accredited as a Health Research Institute by the Carlos III Health Institute (ISCIII).

Job description

The candidate will take the role as a data manager (Senior Technician), inside the HCB-IDIBAPS Biobank. The candidate will be coordinated by the Head of the Biobank and will collaborate with the area coordinators and the senior data manager and will work transversally with the different areas of the Biobank. The candidate will manage data of crucial interest for biomedical research such as data from patient characterization, derived samples and the Biobank's sample catalogue. Specifically, tasks will be:

- To curate Biobank's sample databases, set up of a minimum basic data collection and follow-up of these processes when implemented by the Biobank's collaborators.
- Bioinformatics optimization and automation for uploading sample-related data for samples processed within the Biobank or collaborative centers. The aim is to improve the offer and quality of samples and data for the Scientific Community of the Health National System.
- To search for new clinical and analytical data within the hospital informatics system (SAP). To compile (pre)analytical data, integrate the dataset into the Biobank LIMS system (NorayBanks) and review and maintain its register.
- To interact with researchers and collaborators from the Biobank to improve adaptation of the databases to standards and requirements of translational projects (through clinical, pathological and data management criteria).
- To elaborate activity reports and analyse the Biobank's data collection workflow.
- To engage in communication activities regarding the sample and data catalogue from the Biobank and its activity.

Required qualifications

- Bachelor's degree in bioinformatics, biomedical sciences or similar.
- Master's degree in data management or similar is desired.

Experience and knowledge

Desired previous experience:

- Experience managing big databases and in metadata analysis
- Knowledge of programming languages (Python, Perl, etc)
- Record of working within a hospital environment or having managed clinical data will be an asset.
- Experience in informatics systems (such as SAP or similar)
- We look for a team player, responsible and proactive, creative and with a problem-solving attitude.
- Languages: English (Catalan and Spanish will be a plus).

IDIBAPS offers

- **Type of contract:** Indefinite contract for scientific-technical activities.
- **Working hours:** Full time (37.5 hours / week).
- **Department:** Biobanc HCB-IDIBAPS.
- **Project:** *Projecte de biobanc*.
- **Scientific-technical activity:** Support in the management, curation, and integration of pre-analytical and biomedical data at the HCB-IDIBAPS Biobank, in accordance with international standards, to enhance data quality and accessibility for translational research.
- **Incorporation into IDIBAPS:** A research centre of excellence in the city of Barcelona. Excellent research results and competitive project grant awards, both national and international.
- Long-life training offered by the institute.
- **Working mode:** Hybrid. Teleworking 2/3 days a week (allowed after a period of onsite training).
- **Working conditions:** Holiday entitlement of 22 days + 6 days for personal affairs, flexible working hours and flexible remuneration (health insurance, transport, meal vouchers, training).
- **The chance to form part of a dynamic work environment:** We are a team with a wealth of experience that jointly evaluates ideas and strategies and promotes a healthy work-life balance.

Applications

- **Presentation letter:** explicitly mentioning the call reference and explaining the candidate's personal reasons for applying.
- **Curriculum Vitae:** including a list of publications, where applicable.
- **Documentation accrediting** the credentials set out and the required qualifications.
- **Obligatory:** the duly signed Authorisation relating to EU Regulation 2016/679 on the protection of personal data (*attached document, page 5*) must be attached to the application.

Submission and deadline

- Candidates shall submit their applications, indicating the call reference for the position for which they are applying, by email to the address: FCRBRRHH@recerca.clinic.cat
- **Deadline:** From the publication of this call until November 18, 2025.

The employment contract will be in accordance with the provisions of Legislative Decree 1/1995, of 24 March, approving the text of the Workers' Statute Law, of Law 14/2011, of 1 June, on science, technology and innovation in accordance with the provisions of Art. 2 of Royal Decree 2720/98, of 18 December (BOE of 8 January 1999), Law 12/2001, of 9 July (BOE of 10 July) and concordant provisions.

The principle of equal treatment between men and women fundamental, in accordance with Article 14 of the Spanish Constitution, the European Community Directive of 9 February 1976, and the provisions of the Agreement of the Council of Ministers of 4 March 2005, approving the Plan for Gender Equality in the General State Administration.

The universal accessibility of people with disabilities is fundamental according to section 2 of Article 1 of Law 51/2003, of 2 December, on equal opportunities, and 5% of vacancies are reserved as long as candidates pass the selection processes and accredit their disability and compatibility with the tasks to be carried out, so that we progressively reach 2% of the total workforce.

The gross annual remuneration relating to the position that is the subject of this call will be established based on each candidate's experience and aptitudes.
