

Tècnic/a Mig Suport Recerca (G3) at the Functional characterization of oncogenic mechanisms in lymphomagenesis group.

Code: FU-348/2025

About the institution

The Barcelona Clinical Research Foundation-August Pi i Sunyer Biomedical Research Institute (IDIBAPS) is a biomedical research centre of excellence, located on the Barcelona Clinic Campus and with a clear international focus.

The IDIBAPS research community includes over 2,000 professionals and a hundred multidisciplinary groups that carry out high-impact translational research aimed at addressing biological and clinical questions relevant to human health, as evidenced by the more than 1,500 original articles published each year that make the institution one of the main biomedical research centres in Spain.

The Clínic Campus offers a high-level research and innovation environment, which includes the Hospital Clínic of Barcelona, a referral hospital committed to care, research and teaching, which covers practically all medical and surgical specialties, plus the University of Barcelona's Faculty of Medicine and Health Sciences. The latter dates from 1843 and is today one of the most prestigious health sciences faculties in Spain and worldwide.

Since 2015, IDIBAPS has had [HR Excellence in Research](#) accreditation from the European Commission. It is a CERCA centre and is accredited as a Health Research Institute by the Carlos III Health Institute (ISCIII).

Job description

About the group:

The functional characterization of oncogenic mechanisms in lymphomagenesis group led by Virginia Amador is a strong interdisciplinary research team focused on the study of lymphoid neoplasms. The group identifies and describes the molecular mechanisms and the clinical impact of new oncogenic factors and signalling pathways of aggressive lymphomas using innovative screening tools in primary patient samples, molecular and cell biology tools and mimicking the tumor environments in 3D cocultures. It also conducts translational research, in which it generates lymphoma in murine models to test the treatments in vivo.

The group is looking for a highly motivated laboratory technician in molecular and cellular biology. The selected candidate will work in a project to investigate “

Unravelling the oncogenic SOX11-interactome in mantle cell lymphomas through integrative proteomic strategies for novel therapeutic targets discovery (PROTACSOX)” (PID2024-156687OB-I00)

Tasks:

Molecular and cell biology techniques:

- Cell cultures
- Flow cytometry
- Western Blot
- Immunoprecipitation and immunohistochemistry
- DNA/RNA extraction
- PCR
- Generation of 3D coculture systems and different mouse models

Samples preparation and extraction (OCT, paraffine)

Required qualifications

- Spanish Diplomatura - CFGS.
- Bachelor's Degree in the field of biomedicine, biotechnology or similar will be valued.

Experience and knowledge

- Willingness to work in a team.
- Previous experience in a research laboratory.
- Experience in basic molecular and cell biology techniques:
 - Cell culture
 - Flow cytometry
 - Western Blot
 - Immunoprecipitation and immunohistochemistry
 - DNA/RNA extraction
 - PCR
- Previous experience in sample preparation and extraction (OCT and paraffin).

- Basic computer skills (statistics, image processing, databases).
- Animal experimentation accreditation (FELASA) is required.
- Catalan, Spanish and B2 English.

IDIBAPS offers

- **Type of contract:** Indefinite contract for scientific-technical activities.
- **Working hours:** Full time (37.5 hours / week).
- **Line of research:** Functional characterization of oncogenic mechanisms in lymphomagenesis.
- **Project:** Unravelling the oncogenic SOX11-interactome in mantle cell lymphomas through integrative proteomic strategies for novel therapeutic targets discovery (PROTACSOX).
- **Funder and official project code:** Ministerio de Ciencia, Innovación y Universidades (MICIU), la Agencia Estatal de Investigación (AEI)(DOI: 10.13039/501100011033) y FEDER, UE - PID2024-156687OB-I00.
- **Incorporation into IDIBAPS:** A research centre of excellence in the city of Barcelona. Excellent research results and competitive project grant awards, both national and international.
- Long-life training offered by the institute.
- **Working conditions:** Holiday entitlement of 22 days + 6 days for personal affairs, flexible working hours and flexible remuneration (health insurance, transport, meal vouchers, training).
- **The chance to form part of a dynamic work environment:** We are a team with a wealth of experience that jointly evaluates ideas and strategies and promotes a healthy work-life balance.

Applications

- **Presentation letter:** explicitly mentioning the call reference and explaining the candidate's personal reasons for applying.
- **Curriculum Vitae:** including a list of publications, where applicable.
- **Documentation accrediting** the credentials set out and the required qualifications.
- **Obligatory:** the duly signed Authorisation relating to EU Regulation 2016/679 on the protection of personal data (*attached document, page 5*) must be attached to the application.

Submission and deadline

- Candidates shall submit their applications, indicating the call reference for the position for which they are applying, by email to the address: FCRBRRHH@recerca.clinic.cat
- **Deadline:** From the publication of this call until December 02, 2025.

The employment contract will be in accordance with the provisions of Legislative Decree

1/1995, of 24 March, approving the text of the Workers' Statute Law, of Law 14/2011, of 1 June, on science, technology and innovation in accordance with the provisions of Art. 2 of Royal Decree 2720/98, of 18 December (BOE of 8 January 1999), Law 12/2001, of 9 July (BOE of 10 July) and concordant provisions.

The principle of equal treatment between men and women fundamental, in accordance with Article 14 of the Spanish Constitution, the European Community Directive of 9 February 1976, and the provisions of the Agreement of the Council of Ministers of 4 March 2005, approving the Plan for Gender Equality in the General State Administration.

The universal accessibility of people with disabilities is fundamental according to section 2 of Article 1 of Law 51/2003, of 2 December, on equal opportunities, and 5% of vacancies are reserved as long as candidates pass the selection processes and accredit their disability and compatibility with the tasks to be carried out, so that we progressively reach 2% of the total workforce.

The gross annual remuneration relating to the position that is the subject of this call will be established based on each candidate's experience and aptitudes.

[Link to Regulation \(EU\) 2016/679 of 27 April on the protection of natural persons with regard to the processing of personal data](#)

Barcelona, on November 18, 2025.

Authorisation request

I hereby authorise:

The **FUNDACIÓ DE RECERCA CLÍNICA BARCELONA – INSTITUT D'INVESTIGACIONS BIOMÈDIQUES AUGUST PI I SUNYER (IDIBAPS)**, to process my data for personnel recruitment purposes, transferring them only in cases where legally required, in line with the provisions of Regulation (EU) 2016/679, and the corresponding regulations that develop it.
