

Gestor/a de Projecte (G2) at the Project Development Unit.

Code: FU-63/2026

About the institution

The Barcelona Clinical Research Foundation-August Pi i Sunyer Biomedical Research Institute (IDIBAPS) is a biomedical research centre of excellence, located on the Barcelona Clinic Campus and with a clear international focus.

The IDIBAPS research community includes over 2,000 professionals and a hundred multidisciplinary groups that carry out high-impact translational research aimed at addressing biological and clinical questions relevant to human health, as evidenced by the more than 1,500 original articles published each year that make the institution one of the main biomedical research centres in Spain.

The Clínic Campus offers a high-level research and innovation environment, which includes the Hospital Clínic of Barcelona, a referral hospital committed to care, research and teaching, which covers practically all medical and surgical specialties, plus the University of Barcelona's Faculty of Medicine and Health Sciences. The latter dates from 1843 and is today one of the most prestigious health sciences faculties in Spain and worldwide.

Since 2015, IDIBAPS has had [HR Excellence in Research](#) accreditation from the European Commission. It is a CERCA centre and is accredited as a Health Research Institute by the Carlos III Health Institute (ISCIII).

Job description

- Manage a diverse portfolio of European and international projects.
- Control eligible costs, handle execution extensions, and prepare justification reports.
- Effectively communicate with principal investigators, consortium partners, and funding institutions/agencies.
- Supervise the relationship with auditors and proactively oversee the audit process.
- Act as an intermediary between the institution, the funder, research staff, coordinators, and management units for continuous grant monitoring.
- Ensure strict compliance with funding regulations and policies throughout the project lifecycle.
- Conduct financial forecasting and analysis to anticipate challenges and optimize fund utilization.
- Proactively identify and address potential risks in project execution, implementing effective mitigation strategies.
- Prepare and submit comprehensive reports to funding agencies, detailing project progress, financial utilization, and milestones.
- Oversee subrecipient activities, ensuring alignment with project goals and compliance with regulations.
- Implement quality assurance measures to uphold the integrity of post-award documentation, reports, and financial justifications.

Required qualifications

- Bachelor's degree in business administration and management, Economics, or a related field.
- Training in EU project management will be considered an asset.

Experience and knowledge

- At least 6 years of proven experience in post-award management of European research projects within the competitive funding landscape, particularly with the European Commission (Horizon Europe, Horizon 2020, and similar programmes).
- Extensive knowledge of European research programme regulations and reporting requirements.
- Proven experience within biomedical research institutes, particularly publicly funded research centres (e.g., CERCA centres, hospital-based research foundations or similar environments).
- Specific knowledge of funding programs from other international funders is a plus.
- Strong organizational and multitasking abilities with a focus on meeting deadlines.
- Demonstrated autonomy and the ability to manage multiple projects simultaneously.
- High level of spoken and written English (minimum B2 level), Catalan (C1) and Spanish.
- Proficient in computing, especially Excel.
- Knowledge of SAP-FI.
- Català (C1), English (minimum B2 level) and Spanish.

IDIBAPS offers

- **Type of contract:** Indefinite contract for scientific-technical activities.
- **Working hours:** Full time (37.5 hours / week).
- **Line of research:** Chronic liver diseases // Genetic immunotherapy for the treatment of cancer and other immune-mediated diseases // Follicular lymphoma crosstalk with its immune microenvironment as a source novel targeted therapy // New therapies in lymphoproliferative disorders, including developing and performing clinical trials with experimental targeted therapies
- **Project:** LIVERAIM - A Biomarker-Based Platform for Early Diagnosis of Chronic Liver Disease to Enable Personalized Therapy // MILenARI – Scaling-up advanced lentiviral (LV) and CAR-T academic production across the Mediterranean region // THERAVLINFO – Trans-Pyrenean Network for Advanced Therapies in Non-Hodgkin Lymphoma // RICHARDIII - A pilot study on the use of ARI-0003 cells (dual anti-CD19/CD9 chimeric antigen receptor T-cells) for patients with relapsed/refractory Richter's transformation.
- **Funder and official project code:**
- **Incorporation into IDIBAPS:** A research centre of excellence in the city of Barcelona. Excellent research results and competitive project grant awards, both national and international.
- Long-life training offered by the institute.
- **Working conditions:** Holiday entitlement of 22 days + 6 days for personal affairs, flexible working hours and flexible remuneration (health insurance, transport, meal vouchers, training).
