

DYNAMIS Resolution

Final resolution of the 1st call of DYNAMIS “Doctoral programme Yielding Novel Advancements in Innovative Medicine and Solutions” co-funded by the Horizon Europe COFUND - Marie Skłodowska-Curie Actions scheme (Grant Agreement number 10127395).

Final results

The **five fellowships** available in the current call will be awarded to the following **five candidates**, based on the final ranking resulting from the interviews and the subsequent matching with the research groups during the on-site visits. The granting of the fellowship is conditional upon:

- Compliance with the eligibility criteria outlined in the call description, including the mobility rule, following careful review of the documentary evidence requested from the finalist candidates;
- Eligibility to enrol in a doctoral program;
- Availability to start the contract in the approved timeframes.

If either of these conditions is not met after review, the fellowship will be withdrawn, and the position will be offered to the candidates on the waiting list by order.

Candidate	Research Line
L73YPC6ZK	<i>“Engineering Patient-Derived 3D Myeloma Models to Advance Personalized CAR-T Therapies and Unravel Microenvironment-Driven Resistance”</i>
L4YMLFHV8	<i>“Slow waves and the modulation of human cerebral cortex excitability: from circuit mechanisms to clinical applications”</i>
401964648	<i>“Cognitive symptoms by defective synaptic plasticity in anti-NMDAR encephalitis”</i>
1741694809	<i>“Sleep, psychological and mental health factors in neurodegenerative disorders”</i>
YB3048758	<i>“Brain mechanisms of neuropsychiatric symptoms in schizophrenia: insights from autoimmune encephalitis as a model of NMDA receptor hypofunction”</i>

Waiting list

The waiting list shall remain valid until November 30, 2026, in the event that any of the cases described above arise. After this date, the waiting list will automatically expire and will no longer have any effect.
