

## R2A-Postdoctoral Researcher (G1) at the Translational Research in Hepatic Oncology group.

Code: FU-244/2026

### About the institution

The Barcelona Clinical Research Foundation-August Pi i Sunyer Biomedical Research Institute (IDIBAPS) is a biomedical research centre of excellence, located on the Barcelona Clinic Campus and with a clear international focus.

The IDIBAPS research community includes over 2,000 professionals and a hundred multidisciplinary groups that carry out high-impact translational research aimed at addressing biological and clinical questions relevant to human health, as evidenced by the more than 1,500 original articles published each year that make the institution one of the main biomedical research centres in Spain.

The Clínic Campus offers a high-level research and innovation environment, which includes the Hospital Clínic of Barcelona, a referral hospital committed to care, research and teaching, which covers practically all medical and surgical specialties, plus the University of Barcelona's Faculty of Medicine and Health Sciences. The latter dates from 1843 and is today one of the most prestigious health sciences faculties in Spain and worldwide.

Since 2015, IDIBAPS has had [HR Excellence in Research](#) accreditation from the European Commission. It is a CERCA centre and is accredited as a Health Research Institute by the Carlos III Health Institute (ISCIII).

## Job description

The Translational Research in Hepatic Oncology laboratory at IDIBAPS-Hospital Clínic, University of Barcelona is seeking a motivated individual for the position of Postdoctoral Research Fellow. The Principal Investigator Prof Josep M Llovet is Full Professor of Medicine at the UB and Professor of Research-ICREA.

The main goal of our laboratory is to unravel the molecular determinants of liver cancer, identify novel treatments for HCC patients and discover predictors of response to molecular and immune therapies. We lead an international consortium devoted to liver cancer research, and have produced important contributions in the field during the last years. Our research is focused around the generation and analysis of high-throughput genomic data and state-of-the-art disease models.

Current areas of interest include the identification of mechanisms driving immune infiltration in HCC, biomarkers of response to treatments (including immune checkpoint inhibitors and combinations), and the development of mouse models capable of recapitulating specific HCC features for testing the efficacy of different therapies and assessing drug mechanisms of action. Our efforts are supported by several national and international grants.

## Required qualifications

- PhD.

## Experience and knowledge

- Experience in Cancer Research
- Stays abroad (>1 year), preferably in worldwide recognized scientific institutions.
- PhD in a research field related to Cancer Translational Medicine
- Advanced Level in written and spoken English
- Prior 1st Author-publications
- Hardworking and motivated
- Willing to relocate to Prof Llovet's lab at ICAHN School of Medicine at Mount Sinai in New York if needed.
- English – Spanish.

### Added value if:

- Experience in cancer molecular biology.
- Experience in cancer genomics.
- Experience in immunology.
- Experience in animal modelling of cancer.

## IDIBAPS offers

- **Type of contract:** indefinite-term contract for scientific-technical activities / Fixed-term internship contract for professional practice / Fixed-term contract due to production circumstances.
- **Working hours:** Full time (37.5 hours / week).
- **Line of research:** Translational research in liver cancer.
- **Project:** THRIVE: TUMOUR-HOST INTERACTIONS IN LIVER CANCER OF CHILDHOOD AND ADULTS.
- **Funder and official project code:** European Commission – 101136622.

- **Incorporation into IDIBAPS:** A research centre of excellence in the city of Barcelona. Excellent research results and competitive project grant awards, both national and international.
- Long-life training offered by the institute.
- **Working conditions:** Holiday entitlement of 22 days + 6 days for personal affairs, flexible working hours and flexible remuneration (health insurance, transport, meal vouchers, training and nursery/daycare (not on-site).
- **The chance to form part of a dynamic work environment:** We are a team with a wealth of experience that jointly evaluates ideas and strategies and promotes a healthy work-life balance.
- **Gross annual salary:** 45.000,00€

## Applications

- **Presentation letter:** **explicitly mentioning the call reference (FU-244/2026)** and explaining the candidate's personal reasons for applying.
- **Curriculum Vitae:** including a list of publications, where applicable.
- **Documentation accrediting** the credentials set out and the required qualifications.
- **Mandatory:** the duly signed Authorisation relating to EU Regulation 2016/679 on the protection of personal data (*attached document, page 5*) must be attached to the application.

## Submission and deadline

- Candidates shall submit their applications, indicating the call reference for the position for which they are applying, by email to the address: [FCRBRRHH@recerca.clinic.cat](mailto:FCRBRRHH@recerca.clinic.cat)
- **Deadline:** From the publication of this call until **August 02, 2026**.

The employment contract will be in accordance with the provisions of Legislative Decree 1/1995, of March 24<sup>th</sup>, approving the text of the Workers' Statute Law, of Law 14/2011, of June 1<sup>st</sup>, on science, technology and innovation in accordance with the provisions of Art. 2 of Royal Decree 2720/98, of December 18<sup>th</sup> (BOE of 8 January 1999), Law 12/2001, of July 9<sup>th</sup> (BOE of 10 July) and concordant provisions.

The principle of equal treatment between men and women fundamental, in accordance with Article 14 of the Spanish Constitution, the European Community Directive of February 9, 1976, and the provisions of the Agreement of the Council of Ministers of March 4, 2005, approving the Plan for Gender Equality in the General State Administration.

The universal accessibility of people with disabilities is fundamental according to section 2 of Article 1 of Law 51/2003, of December 2<sup>nd</sup>, on equal opportunities, and 5% of vacancies are reserved as long as candidates pass the selection processes and accredit their disability and compatibility with the tasks to be carried out, so that we progressively reach 2% of the total workforce.

The gross annual remuneration relating to the position that is the subject of this call will be established based on each candidate's experience and aptitudes.
