

Tècnic/a de Laboratori (G3) at the Chronic Liver Diseases: Molecular Mechanisms and Clinical Consequences group.

Code: FU-302/2026

About the institution

The Barcelona Clinical Research Foundation-August Pi i Sunyer Biomedical Research Institute (IDIBAPS) is a biomedical research centre of excellence, located on the Barcelona Clinic Campus and with a clear international focus.

The IDIBAPS research community includes over 2,000 professionals and a hundred multidisciplinary groups that carry out high-impact translational research aimed at addressing biological and clinical questions relevant to human health, as evidenced by the more than 1,500 original articles published each year that make the institution one of the main biomedical research centres in Spain.

The Clínic Campus offers a high-level research and innovation environment, which includes the Hospital Clínic of Barcelona, a referral hospital committed to care, research and teaching, which covers practically all medical and surgical specialties, plus the University of Barcelona's Faculty of Medicine and Health Sciences. The latter dates from 1843 and is today one of the most prestigious health sciences faculties in Spain and worldwide.

Since 2015, IDIBAPS has had [HR Excellence in Research](#) accreditation from the European Commission. It is a CERCA centre and is accredited as a Health Research Institute by the Carlos III Health Institute (ISCIII).

UNIÓN EUROPEA

Job description

We require a candidate who is dynamic and can work independently as well as being a team player. The candidate will work alongside the other team members made up of clinical researchers, nurses and the principal investigator to ensure the objectives of the project are reached.

- 1) Specifically, the candidate will co-ordinate the handling and management of the biological samples related to WP 4, communicating with the other centres in Europe participating in the clinical trial. The candidate will have to explain how the samples need to be collected, stored and prepared for shipment.
- 2) The candidate will be responsible for the storage and biobanking of samples as well as processing, aliquoting, storage and inventory management, including traceability of human biological samples.
- 3) Additional activities will include providing technical laboratory support to the group's translational research projects. These activities will include: Sample processing, experimental workflows, generation of high-quality research data in support of the team's research activities.

Required qualifications

- FPII - CFGM/CFGS (bachelor's degree in biology/Biomedicine/Biochemistry will be valued)

Experience and knowledge

- Experience in the co-ordination, handling and management of human biological samples, including sample tracking, storage and shipment. Experience in processing human samples in accordance with standardized laboratory.
- techniques and protocols. Actual hands-on experience with basic molecular biology and cell biology lab techniques will be required. A reasonable level of English is required for the smooth communication with other European partner centres will be required (both written and oral). An official qualification is not necessary, but this will be tested in the interview process.
- English.

IDIBAPS offers

- **Type of contract:** indefinite-term contract for scientific-technical activities.
- **Working hours:** Full time (37.5 hours / week).
- **Line of research:** Prevention and treatment of chronic liver diseases.
- **Project:** LIVERAIM: A Biomarker-Based Platform for Early Diagnosis of Chronic Liver Disease to Enable Personalized Therapy.
- **Funder and official project code:** European Commission – 101132901.
- **Incorporation into IDIBAPS:** A research centre of excellence in the city of Barcelona. Excellent research results and competitive project grant awards, both national and international.
- Long-life training offered by the institute.

- **Working conditions:** Holiday entitlement of 22 days + 6 days for personal affairs, flexible working hours and flexible remuneration (health insurance, transport, meal vouchers, training and nursery/daycare (not on-site).
