Llicenciat/da Suport Recerca (G3) at the Dynamics of cortical circuits

Code: FU-351/2026

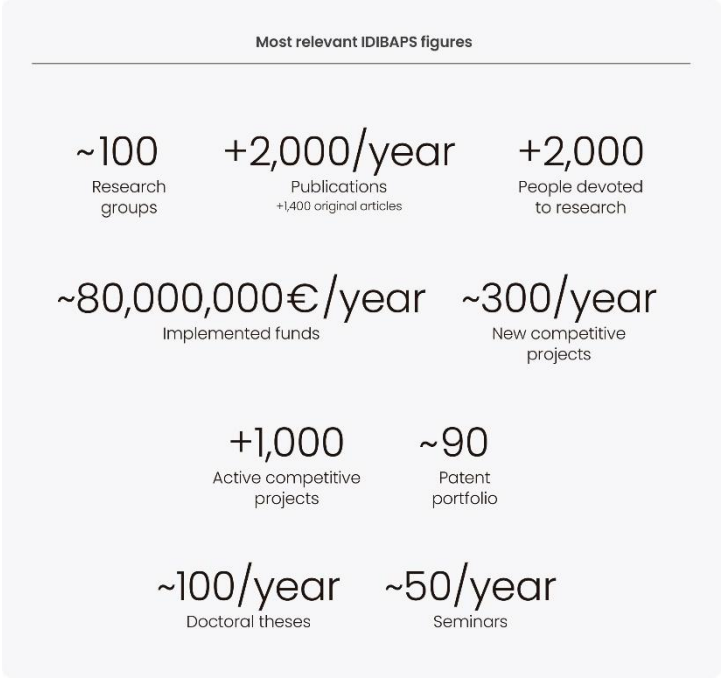

About the institution

The Barcelona Clinical Research Foundation-August Pi i Sunyer Biomedical Research Institute (IDIBAPS) is a biomedical research centre of excellence, located on the Barcelona Clinic Campus and with a clear international focus.

The IDIBAPS research community includes over 2,000 professionals and a hundred multidisciplinary groups that carry out high-impact translational research aimed at addressing biological and clinical questions relevant to human health, as evidenced by the more than 1,500 original articles published each year that make the institution one of the main biomedical research centres in Spain.

The Clínic Campus offers a high-level research and innovation environment, which includes the Hospital Clínic of Barcelona, a referral hospital committed to care, research and teaching, which covers practically all medical and surgical specialities, plus the University of Barcelona's Faculty of Medicine and Health Sciences. The latter dates from 1843 and is today one of the most prestigious health sciences faculties in Spain and worldwide.

Since 2015, IDIBAPS has had HR Excellence in Research accreditation from the European Commission. It is a CERCA centre and is accredited as a Health Research Institute by the Carlos III Health Institute (ISCIII).

MINISTERIO DE CIENCIA, INNOVACIÓN Y UNIVERSIDADES

AGENCIA ESTATAL DE INVESTIGACIÓN

Job description

- Train mice to perform perceptual tasks using a highly automated computer-controlled system that records and controls the behavioural apparatus.
- Perform brain surgeries for implanting subcranial electrodes, cannulas, fibres, and tracing and pharmacological substances.
- Conduct behavioural experiments during which animals' brain activity will be recorded or manipulated.
- Quantify and monitor the behavioural performance of the animals using custom-made software. Make simple reports about behavioural performance using simple data analysis programs (e.g. Excell, Python).
- Place laboratory orders regarding the animal experiments.
- Manage the organization of the lab, stocks, etc.
- Previous experience working with mice and rats is an advantage.
- Responsibility, attention to detail and high motivation.
- Excellent interpersonal skills, strong problem-solving skills as well as organizational capabilities.
- Ability to keep track of multiple experiments simultaneously.

Required qualifications

- Bachelor´s degree.
- Required specialization: Neuroscience.

Experience and knowledge

- +10 experience as Lab Manager.
- Fluency in English (spoken and written). Notions of Spanish or Catalan will be a plus.
