Tècnic/a Mig Suport Recerca (G3) at the Heterogeneity and plasticity of the tumor microenvironment (TMHet) group.

Code: FU-369/2026

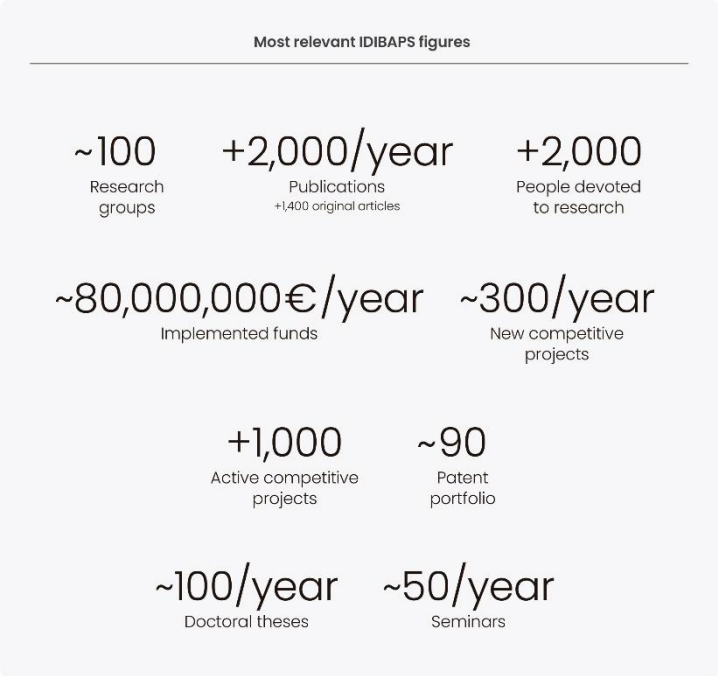

About the institution

The Barcelona Clinical Research Foundation-August Pi i Sunyer Biomedical Research Institute (IDIBAPS) is a biomedical research centre of excellence, located on the Barcelona Clinic Campus and with a clear international focus.

The IDIBAPS research community includes over 2,000 professionals and a hundred multidisciplinary groups that carry out high-impact translational research aimed at addressing biological and clinical questions relevant to human health, as evidenced by the more than 1,500 original articles published each year that make the institution one of the main biomedical research centres in Spain.

The Clínic Campus offers a high-level research and innovation environment, which includes the Hospital Clínic of Barcelona, a referral hospital committed to care, research and teaching, which covers practically all medical and surgical specialities, plus the University of Barcelona's Faculty of Medicine and Health Sciences. The latter dates from 1843 and is today one of the most prestigious health sciences faculties in Spain and worldwide.

Since 2015, IDIBAPS has had HR Excellence in Research accreditation from the European Commission. It is a CERCA centre and is accredited as a Health Research Institute by the Carlos III Health Institute (ISCIII).

UNIÓN EUROPEA

Job description

The successful candidate will join a dynamic and international research team focused on translational research in liver cancer and tumor stroma biology. The researcher will be responsible for designing and conducting experimental studies using preclinical models of liver cancer, including mouse surgery procedures, tumor induction protocols, and in vivo disease modelling.

The candidate will perform molecular and cellular biology experiments, including tissue processing, cell culture, molecular analyses, and the characterization of tumor and stromal cell populations. A minimum of two years of experience in molecular and cellular biology is required, together with certification and proven expertise in animal experimentation and mouse surgical procedures.

In addition, the researcher will be responsible for the analysis and interpretation of experimental data using bioinformatics, computational biology, and statistical tools.

The position also involves mentoring and training master's students, providing scientific guidance in experimental design, laboratory techniques, data analysis, and research communication.

We offer a highly collaborative, dynamic, and international working environment. We are seeking a talented, motivated, and proactive researcher with strong scientific curiosity, excellent teamwork skills, and a commitment to advancing innovative research in liver cancer biology and translational medicine.

Required qualifications

- Bachelor's degree.
- Required specialization: Master´s degree in Oncology clinical research, Biomedicine or similar will be valued.

Experience and knowledge

- Translational Research in Liver Cancer and Stroma. Animal Experimentation Course and Expertise in Mouse Surgeries and Liver Cancer Models Induction. Molecular And Cell Biology Experience Minimum 2 Years.
- English.

IDIBAPS offers

- **Type of contract:** indefinite-term contract for scientific-technical activities.
- **Working hours:** Full time (37.5 hours / week).
- **Line of research:** Deciphering the Role of Cancer Associated Fibroblasts In Desmoplastic Tumors.
- **Project:** DynamHet: Deciphering the dynamic-plasticity and heterogeneity of cancer-associated fibroblasts.
- **Funder and official project code:** European Commission – 101077312.
- **Incorporation into IDIBAPS:** A research centre of excellence in the city of Barcelona. Excellent research results and competitive project grant awards, both national and international.

- Long-life training offered by the institute.
- **Working conditions:** Holiday entitlement of 22 days + 6 days for personal affairs, flexible working hours and flexible remuneration (health insurance, transport, meal vouchers, training and nursery/daycare (not on-site).
- **The chance to form part of a dynamic work environment:** We are a team with a wealth of experience that jointly evaluates ideas and strategies and promotes a healthy work-life balance.

Applications

- **Presentation letter**: **explicitly mentioning the call reference (FU-369/2026)** and explaining the candidate's personal reasons for applying.
- **Curriculum Vitae:** including a list of publications, where applicable.
- **Documentation accrediting** the credentials set out and the required qualifications.
- **Mandatory:** the duly signed Authorisation relating to EU Regulation 2016/679 on the protection of personal data *(attached document, page 4*) must be attached to the application.

Submission and deadline

- Candidates shall submit their applications, indicating the call reference for the position for which they are applying, by email to the address: **FCRBRRHH@recerca.clinic.cat**
- Deadline: From the publication of this call until **December 02, 2026.**

The employment contract will be in accordance with the provisions of Legislative Decree 1/1995, of March 24th , approving the text of the Workers' Statute Law, of Law 14/2011, of June 1st , on science, technology and innovation in accordance with the provisions of Art. 2 of Royal Decree 2720/98, of December 18th (BOE of 8 January 1999), Law 12/2001, of July 9th (BOE of 10 July) and concordant provisions.

The principle of equal treatment between men and women fundamental, in accordance with Article 14 of the Spanish Constitution, the European Community Directive of February 9, 1976, and the provisions of the Agreement of the Council of Ministers of March 4, 2005, approving the Plan for Gender Equality in the General State Administration.

The universal accessibility of people with disabilities is fundamental according to section 2 of Article 1 of Law 51/2003, of December 2nd , on equal opportunities, and 5% of vacancies are reserved as long as candidates pass the selection processes and accredit their disability and compatibility with the tasks to be carried out, so that we progressively reach 2% of the total workforce.

The gross annual remuneration relating to the position that is the subject of this call will be established based on each candidate's experience and aptitudes.

Link to Regulation (EU) 2016/679 of April 27th on the protection of natural persons with regard to the processing of personal data

Barcelona, on November 17, 2026.

Authorisation request

I hereby authorise:

The **FUNDACIÓ DE RECERCA CLÍNIC BARCELONA – INSTITUT D'INVESTIGACIONS BIOMÈDIQUES AUGUST PI I SUNYER (IDIBAPS),** to process my data for personnel recruitment purposes, transferring them only in cases where legally required, in line with the provisions of Regulation (EU) 2016/679, and the corresponding regulations that develop it.
