Nº REF.: FU-346/2026

POSITION OFFERED:

1 position of Tècnic/a Superior de Paltaformes at the Scientific Platforms - IDIBAPS.

Extension of the application deadline:

The period to apply to this position has been extended until: **December 8th, 2026.**

Barcelona, November 16th, 2026.

Tècnic/a Superior de Paltaformes at the Scientific Platforms - IDIBAPS.

Code: FU-346/2026

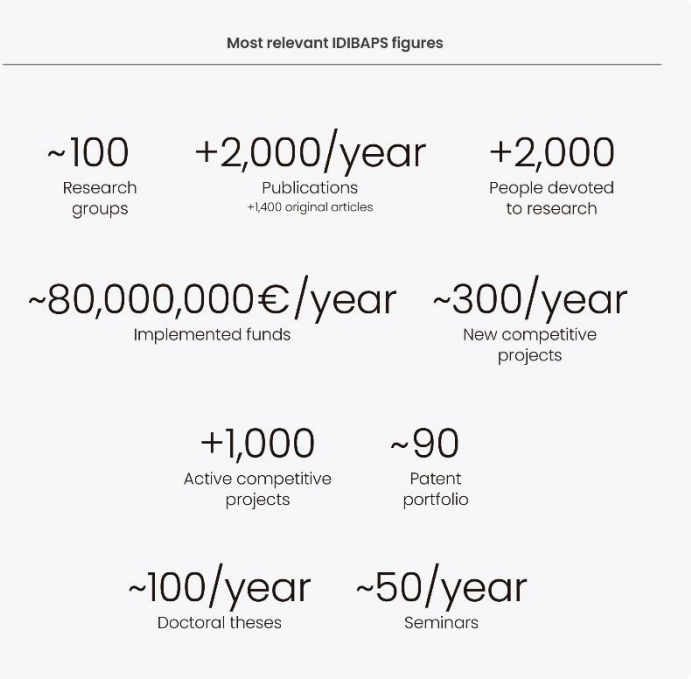

About the institution

The Barcelona Clinical Research Foundation-August Pi i Sunyer Biomedical Research Institute (IDIBAPS) is a biomedical research centre of excellence, located on the Barcelona Clinic Campus and with a clear international focus.

The IDIBAPS research community includes over 2,000 professionals and a hundred multidisciplinary groups that carry out high-impact translational research aimed at addressing biological and clinical questions relevant to human health, as evidenced by the more than 1,500 original articles published each year that make the institution one of the main biomedical research centres in Spain.

The Clínic Campus offers a high-level research and innovation environment, which includes the Hospital Clínic of Barcelona, a referral hospital committed to care, research and teaching, which covers practically all medical and surgical specialities, plus the University of Barcelona's Faculty of Medicine and Health Sciences. The latter dates from 1843 and is today one of the most prestigious health sciences faculties in Spain and worldwide.

Since 2015, IDIBAPS has had HR Excellence in Research accreditation from the European Commission. It is a CERCA centre and is accredited as a Health Research Institute by the Carlos III Health Institute (ISCIII).

Instituto de Salud Carlos III

Cofinanciado por la Unión Europea

Job description

We are seeking an experienced Data Manager to drive the development, integration and governance of biomedical research data within the HCB-IDIBAPS Biobanc, Reporting to the Head of the Biobank Core Facility. The successful candidate will join the Biobank as a Senior Platform Technician (ISCIII category) and serve as Clinical Data manager for a project funded through the ISCIII Biobanks and Biomodels Platform. The position combines strategic data stewardship, process innovation and close interaction with researchers and clinicians, offering the opportunity to contribute to internationally recognized biobanking initiatives and cutting-edge translational research projects.

Key responsibilities include:

- Curate and maintain Biobank sample databases, define minimum data collection requirements and oversee their implementation I collaboration with Biobank partners and contributors.
- Lead the optimization and automation of data integration and bioinformatics workflows for loading and managing data generated within the Biobank and collaborating institutions, with the aim of improving the quality, richness and usability of samples and associated datasets available to researchers.
- Identify, retrieve and integrate clinical and analytical data from hospital information systems (SAP and related platforms)
- Compile pre-analytical and analytical data, integrate datasets into de Biobank Laboratory Information Management System (LIMS; NorayBanks) and ensure their accuracy, consistency and long-term maintenance.
- Collaborate closely with researchers, clinicians, pathologists and Biobank stakeholders to ensure data structures meet the standards and requirements of translational research projects and emerging scientific initiatives.
- Monitor, analyse and improve data collection workflows and prepare activity reports, performance indicators and data quality assessments.
- Contribute to the development, promotion and dissemination of the Biobank´s sample and data catalogue, supporting communication and engagement activities with the research community.
- Participate in initiatives related to data governance, standardization, interoperability and digital transformation within the Biobank and broader research infrastructures.
- Participate in outreach communication activities promoting the Biobank´s services, sample and data catalogue, while actively supporting quality management, continuous improvement initiatives and compliance with accreditation requirements.
- Participate in contingency planning for the Biobank´s storage infrastructure, helping to ensure sample preservation, operational resilience and compliance with quality standards.

Required qualifications

- Degree in Biosciences or Bioinformatic.
- Master´s degree.

Experience and knowledge

- Experience in large-scale databases management. Metadata analysis will be considered an asset.
- Knowledge of scripting and programming languages (e.g., Python, Perl or similar) will be considered an asset.
- Experience working in a hospital environment or managing clinical and health-related data will be considered an asset.
- English, Catalan and Spanish.

IDIBAPS offers

- **Type of contract:** Temporary contract to cover a vacant position.
- **Working hours:** Full time (37.5 hours / week).
- **Line of research:** BIOBANC HCB-IDIBAPS.
- **Project:** Fortalecimiento del Biobanco, acreditado con la nueva norma ISO 20387:2020 de biobancos, para la muestras y datos asociados, y ampliación de biomodelos en organoides para la transferencia a la biomedicina.
- **Funder and official project code:** Instituto de Salud Carlos III (ISCIII) y cofinanciado por la Unión Europea - PT23/00124.
- **Incorporation into IDIBAPS:** A research centre of excellence in the city of Barcelona. Excellent research results and competitive project grant awards, both national and international.
- Long-life training offered by the institute.
- **Working mode:** Hybrid. Teleworking 2/3 days a week (allowed after a period of onsite training).
- **Working conditions:** Holiday entitlement of 22 days + 6 days for personal affairs, flexible working hours and flexible remuneration (health insurance, transport, meal vouchers, training and nursery/daycare (not on-site).
- **The chance to form part of a dynamic work environment:** We are a team with a wealth of experience that jointly evaluates ideas and strategies and promotes a healthy work-life balance.

Applications

- **Presentation letter**: **explicitly mentioning the call reference (FU-346/2026)** and explaining the candidate's personal reasons for applying.
- **Curriculum Vitae:** including a list of publications, where applicable.
- **Documentation accrediting** the credentials set out and the required qualifications.
- **Mandatory:** the duly signed Authorisation relating to EU Regulation 2016/679 on the protection of personal data *(attached document, page 4*) must be attached to the application.

Submission and deadline

- Candidates shall submit their applications, indicating the call reference for the position for which they are applying, by email to the address: **FCRBRRHH@recerca.clinic.cat**
- Deadline: From the publication of this call until **November 15, 2026.**

The employment contract will be in accordance with the provisions of Legislative Decree 1/1995, of March 24th , approving the text of the Workers' Statute Law, of Law 14/2011, of June 1st , on science, technology and innovation in accordance with the provisions of Art. 2 of Royal Decree 2720/98, of December 18th (BOE of 8 January 1999), Law 12/2001, of July 9th (BOE of 10 July) and concordant provisions.

The principle of equal treatment between men and women fundamental, in accordance with Article 14 of the Spanish Constitution, the European Community Directive of February 9, 1976, and the provisions of the Agreement of the Council of Ministers of March 4, 2005, approving the Plan for Gender Equality in the General State Administration.

The universal accessibility of people with disabilities is fundamental according to section 2 of Article 1 of Law 51/2003, of December 2nd , on equal opportunities, and 5% of vacancies are reserved as long as candidates pass the selection processes and accredit their disability and compatibility with the tasks to be carried out, so that we progressively reach 2% of the total workforce.

The gross annual remuneration relating to the position that is the subject of this call will be established based on each candidate's experience and aptitudes.

Link to Regulation (EU) 2016/679 of April 27th on the protection of natural persons with regard to the processing of personal data

Barcelona, on November 05, 2026.
